orgn't / org. for CORONA under the new Agreement.

25X1

SPACE INTELLIGENCE PANEL - Advisory to the DCI

Purpose:

On the recommendation of Dr. Wheelon, established to review Soviet manned space programs; lunar and interplanetary activity; meteorological, and scientific payloads; programs with potential military significance; and over-all capability for future space efforts. Also to review non-Soviet space programs in all other countries, specifically the likelihood of space programs

Period of Activity (Dec 1965) —

25X1

Establishment approved by the DCI, Admiral Raborn, 13 September 1965. Meets twice a year with one meeting being devoted to consideration of the contributions to NIE-11-1 (The Soviet Space Program), and reports significant findings and recommendations to the DCI. Still active in 1970.

mtg. in Dec. 66 28-29 July 1966 mtg., held in L.A.,
Panel felt Chairman: was asked by w/f's to consider & give first eval. of
